Questions & Answers

What is a 99J Burgundy Lace Frontal Wig?

A 99J Burgundy Lace Frontal Wig is a wig made from human hair, featuring a rich burgundy color (99J) with a lace frontal that allows for a natural hairline appearance. It typically has a 13x6 inch parting space for versatile styling.

What is the difference between HD transparent lace and regular lace?

HD transparent lace is thinner and more sheer than regular lace, making it blend more seamlessly with different skin tones. This results in a more natural-looking hairline and scalp appearance.

Is the 99J Burgundy Lace Frontal Wig pre-plucked?

Yes, the 99J Burgundy Lace Frontal Wig is pre-plucked, which means the hairline has been thinned out to create a more natural look, reducing the need for additional customization.

Can the body wave texture of the wig be styled?

Absolutely! The body wave texture can be styled with heat tools such as curling irons or straighteners. However, it's essential to use a heat protectant to maintain the wig's quality.

How do I care for my 99J Burgundy Lace Frontal Wig?

Care for your wig by gently washing it with sulfate-free shampoo and conditioner, avoiding excessive heat, and storing it properly on a wig stand to maintain its shape.

What is the best way to secure the lace frontal wig?

The best way to secure a lace frontal wig is to use a combination of wig glue, adhesive spray, and/or wig clips. Properly applying the wig ensures it stays in place throughout the day.

Can I dye or bleach the 99J Burgundy Lace Frontal Wig?

While you can dye or bleach a human hair wig, it's essential to proceed with caution. The 99J color may lighten or change in unexpected ways, so it's recommended to conduct a strand test first.

What are the benefits of a 13x6 lace frontal compared to a regular lace frontal?

A 13x6 lace frontal provides a wider parting space (13 inches across and 6 inches back), offering more styling versatility, including deeper side parts and updos compared to standard lace frontals.

Is the 99J Burgundy Lace Frontal Wig suitable for all skin tones?

Yes, the 99J Burgundy color is versatile and complements a variety of skin tones. The HD transparent lace further aids in blending seamlessly with different complexions.
